VON BERNSTORFF HAS HIS PASSPORTS

DIPLOMATIC RELATIONS BETWEEN UNITED STATES AND GERMANY ARE SEVERED

OTHER NEUTRALS MAY FOLLOW LEAD OF THE UNITED STATES

NEVER IN HISTORY HAVE DIPLOMATIC RELATIONS BEEN SEVERED BETWEEN FIRST CLASS POWERS WITHOUT DECLARATION OF WAR FOLLOWING

PRESIDENT BELIEVES COUNTRY IS

SOLIDLY BEHIND HIM IN BREAKING

WITH THE BERLIN GOVERNMENT

AFTER INVOKING GUIDANCE OF GOD

ALMIGHTY, PRESIDENT WILSON

EXPLAINS CRISIS TO CONGRESS

WASHINGTON, Feb. 3.—Diplomatic relations with Germany were broken off this morning.

Passports were handed to Count von Bernstorff, the German ambassador, and American Ambassador Gerard was instructed to request his passports of the German government.

The decision to break off diplomatic relations came after the cabinet meeting yesterday and a discussion with senators.

In a conference with senators President Wilson was led to believe that the country will stand solidly behind him in breaking relations with Germany.

Whether a break will occur between the United States and Austria-Hungary is not learned definitely but as Austria sanctioned Germany's action regarding submarine warfare a break is expected if it has not already taken place.

Secretary Daniels announces that none but officials and employees of navy yards will be admitted to such government reservations.

The United States also demanded of Germany the release of sixty-four American prisoners on the prize ships captured by the South Atlantic raider. The Americans were taken from the steamers Georgic, Mount Temple, and Voltaire. Sixty are confined at the prison camp at Westfalen.

The breaking of diplomatic relations brings the United States on the verge of war. Never in the history has two first-class powers severed relations without hostilities following.

Both the president and Germany has counted the cost of such action. Germany has said she is prepared to pay for the consequences in the hope of shortening the war.

Not unmindful of the possibilities of disturbances by Germany sympathizers all steps have been taken by the United States government to meet the situation.

At the capitol the news received approbation on every hand.

Leader Kitchen today told Leader Mann when the House convened that no action is contemplated by the House today.

Senator Tillman said "I'm mighty glad of it. When I heard the first note I favored telling Von Bernstorff to pack his duds and go home to his barbarians. Congress ought to back up the president like we did McKinley."

Count von Bernstorff said he was sorry but the action of the United States is nothing more than he expected. "There was nothing else left for the United States to do," he asserted, but he expects President Wilson will keep up his peace efforts, possibly through the Swiss government.

It is announced that Spain will take over the diplomatic interests of the United States.

Ambassador Gerard's instructions are to close up all consulates in Germany, as well as the embassy. All diplomatic and consular officers will be brought out of Germany. This makes the severance more complete than usual.

Spanish Ambassador Riano said he could not say whether or not Spain will follow the lead of the United States in breaking with Germany.

No special orders have been issued for increasing the guard at army and naval reservations and arsenals but each commanding officer has authority to take any necessary steps.

Secretary Daniels said that the winter cruising orders of the Atlantic fleet to Cuban waters has not been changed.

It is announced that Germany's diplomatic relations with the United States will be assumed by Switzerland.

Senator Thomas introduced an amendment to the Revenue bill proposing a half billion dollar issue of treasury notes for naval and military preparedness. The notes will pay the purchase price of munitions and could be used to pay taxes in case of urgency.

The Administration Senate Judiciary committee will immediately after the president's address consider measures to protect the United States against conspiracies.

John D. Rockefeller, the Modern Croesus, Again Guest at Hotel Ormond

John D. Rockefeller, the richest man in the world, arrived at the Hotel Ormond last night for a stay of several weeks. This makes his second consecutive season at the Ormond. Born at Richford, N. Y., on July 8, 1839, young Rockefeller earned his first money at the age of eight years by hoeing a neighbor's garden patch for twenty-five cents. This he proudly exhibited to his father, William Avery Rockefeller, a shrewd farmer. "I had a peculiar training in my home," said Mr. Rockefeller in relating his early experiences. "It seemed to be a business training from the very beginning. I was taught to be self-reliant. I was taught to do as

WASHINGTON, Feb. 3.—Fervently invoking the guidance of Almighty God, President Wilson opened his address to Congress this afternoon with a review of the last stages of the submarine negotiations with Germany, which began April 8, with the sending of the American note regarding the Sussex.

The president declared that the United States had stated its final position on May 8, by clearly telling Germany that the responsibility for the safety of Americans on the high seas, as far as German submarine operations were concerned, was Germany's "absolutely and not relatively."

Concluding, the president said that he does not believe Germany plans an overt act against the United States, but if such are committed, he will ask Congress for authority to "protect our seamen and our people."

Senator Lodge declared he is with the president.

Senator Fletcher, of Florida, said he thought last night it had happened.

NEUTRALS GENERALLY AFFECTED.

WASHINGTON, Feb. 3.—No other proposition of the war has so completely affected all neutrals alike, it is pointed out. The European neutrals are struck in their vitals; the South American neutrals, as shown by their first press comment, are hardly less affected through the cutting off of their foreign trade.

NO COLDER WEATHER PREDICTED.

Up to the time of going to press it was impossible to ascertain the stock exchange quotations. However, the Daily News learns that United States Common Steel closed at 104, a net increase over yesterday's closing price of five-eighths.

PROPOSE BUILDING OF HIGHWAY FROM ORMOND TO SEVILLE

PROJECT IS FAVORED BY COMMISSIONER C. F. BURGMAN WHO NOTES NUMBER OF REASONS FOR THE IMPROVEMENT.

A petition will be presented at the meeting of the board of county commissioners on the 13th inst. for the building of a road from Haw creek to DeLand. A supplementary petition will accompany the foregoing, requesting that should a road be built from Ormond to the St. Johns river that said road be so laid out that it connect with a bridge which will be required in the building of the aforementioned Haw creek road. These petitions will be presented, so I am reliably informed, by citizens from the northwestern part of the county.

For some time I have been an advocate of the building of a highway across the northern part of Volusia county, that is from Ormond to Seville, the nearest point where Volusia county can connect with Putnam county over a public road within this county. Such a road should be constructed in as near a straight line as the prevailing physical conditions of the land permit.

In view of the proposed plan to build a road from Haw creek to DeLand, I think it timely that the citizens and property owners as well as the business men of the East Coast arouse themselves and become wide awake to the possibilities and benefits to be derived from a well-built road which will traverse in a direct line the northwestern part of Volusia county and make opportunity for connecting us with the 18 counties to the northwest of us and in the state of Florida. For all the benefits we derive at present from the near proximity of this great territory and its thriving population these counties might just as well be part of the northwest of Africa.

To reach Ormond from Seville over the present county roads a distance of 55 miles needs to be traversed, yet in a direct line Ormond and Seville are separated by but 22 miles; and these 22 miles cover, so I am informed, the finest agricultural and grazing section in the county of Volusia. A good road through these lands will induce settlement of these lands as no other factor will and such settlements will in time prove tremendous feeders to the East Coast towns. But this is not all.

Putnam county with its thriving city of Palatka is our near neighbor. Eighteen years ago, when I was but a recent arrival and the Colonades and Mrs. Hadfield's Clarendon Inn were new, many visitors from Palatka thronged the beach during the summer and fishing season. There were visitors from Gainesville, Ocala and other places, too; and numbers came from the Mississippi delta to enjoy the cooling breezes during the summer months and our fine fishing. We see none of these old time visitors now. Good roads built in other directions and the automobile have attracted them elsewhere. This matter of hard surfaced roads was the subject of much discussion even in those days. Could these have been built then, there would have been no complaint for the want of summer trade on the beach or among the merchants of our several communities.

Putnam, Alachua and Clay counties are our immediate neighbors to the northwest and these connect with good roads. The counties of Baker, Hamilton, Madison, Jefferson, Leon, Gadsden, Jackson, Holmes, Walton and Santa Rosa border respectively the states of Georgia and Alabama. We should reach out for a summer trade among the people living in this great and thriving territory; to establish, in fact, an all the year round intercourse with them. A good road will bring many who would otherwise never come.

If new roads are to be opened in this county the East Coast should be alive to the situation. Mere local roads leading to the county seat will benefit that section only. I find no fault that it should, but we should build broader and build a more comprehensive system that would benefit the entire section and make it more

FIRE DAMAGES LA CROSS VILLA ON NORTH RIDGEWOOD

BLAZE BURNS OFF ROOF AND ATTIC FLOOR OF RIDGEWOOD AVENUE HOUSE CAUSING ABOUT \$2,000 DAMAGES.

The first fire of any size that Daytona has had for some time occurred this morning, when the La Cross Villa, 36 North Ridgewood avenue, was considerably damaged, the roof and attic floor being destroyed by fire and the whole house being flooded by water.

An alarm was sent in at 8:40 and was responded to immediately by the fire truck and Chief W. E. French, with a number of firemen. It was found that the blaze was just a small chimney fire which was extinguished by the use of chemicals in a short time. The men returned to the fire station.

About an hour later a second alarm came in from the same place and as soon as the department could get to the scene, almost the entire roof of the building was in flames, the shingles and woodwork having again caught in some manner unknown to the people in the house. Two lines of hose were immediately laid and streams put on the fire which was fast assuming dangerous proportions. The truck rushed back to the station for the ladder truck and word was sent to the water works station for direct pumping into the mains. Forty-five minutes or an hour of good hard work by the members of the department then extinguished the fire, saving the lower floor of the large house from all damage except the considerable harm done by the water.

The firemen are quite sure that the second blaze was started in some way entirely foreign to the first as there was no fire around the chimney when the men first started to put out the second blaze.

The total damage to the building was at least \$1,500, as the whole attic and third floor will have to be built over. This loss is nearly covered by insurance with Conrad and Donnelly and another local firm. The house is owned by Miss L. A. Cross and has been leased for several years by Pritchard and White, of Port Chautauque, N. Y.

economic in the end to connect all. And here on the East Coast we should not be negligent to our own benefits on that score. I should favor a good main road across the northern part of the county which has now no cross road at all.

S. E. Lemon, of Barberville, a member of the Volusia county school board, has been in correspondence with me on this subject and I have requested him to notify the citizens along his district, from Barberville to Seville, to meet at the county court house in DeLand on Tuesday, February 13th, at 7:30 p. m. in conference with the citizens of the East Coast in order that a plan, mutually beneficial, be evolved or the construction of a main highway as indicated in the foregoing.

It is beyond my physical ability just now, nor can I give the time from my business (much of such time is now being absorbed by county affairs) to notify all those individually interested. Through the courtesy of our friends, the editors of our local press, then, I make this request that all those interested in this plan of a new road, whether living in Ormond, Holly Hill, Daytona, Kingston, Seabreeze, Daytona Beach or elsewhere, take this matter into earnest consideration. Have the mayors, or those in authority, delegate representatives to the above mentioned conference and induce all others to come who can and are interested.

The board of county commissioners meets on the 13th of this month. We hope to dispose of all business before the board during the day and be present at this conference and be helpful in the good work.

CHAS. F. BURGMAN,
Commissioner.

NOTICE TO PATRONS
"Owing to the unusual consumption of gas because of weather conditions the pressure throughout the system has been correspondingly low and it was found absolutely necessary to temporarily cut out parts of the system. This is due to the fact that the second unit of the gas plant failed to arrive at the specified time and its installation has not yet been completed.

LOW TEMPERATURE PREVAILED HERE ALL LAST NIGHT

COLDEST WEATHER IN MANY YEARS SWEEPS OVER FLORIDA CAUSING DAMAGE TO FRUITS AND VEGETABLES.

The temperature in this section last night is variously reported from 20 to 25 degrees above zero, bearing out the predictions of the weather report of yesterday.

Except where protected, vegetables and all tender vegetation has been frozen and the orange industry has undoubtedly suffered severely in the damage to fruit and trees, although the damage may have been lessened in cases where the groves were protected by firing or the use of oil smudge pots. The Munroe & Stevens groves and several other large groves in this vicinity have been so protected, but it is still too early to know definitely what benefit has resulted. R. S. Maley used 400 smudge pots and 200 open fires in his grove and is said to have stated that he believed good results therefrom. J. B. Hinsky, an old resident, for many years interested in citrus culture, said it was his belief that the fruit was ruined, small trees killed and the fruit buds and small branches destroyed on the large trees. Any trees still dormant will escape injury.

This is the most disastrous freeze since that of 1894-5 and follows a succession of several years without damage to the citrus industry, the last time being seven or eight years ago when the fruit was frozen, but little injury resulted to the trees.

ELK'S LODGE BUYS ADJOINING PROPERTY

PURCHASE MADE TO PROVIDE FOR FUTURE EXPANSION, AS PHENOMENAL GROWTH IS CROWDING PRESENT BUILDING.

Daytona Lodge No. 1141, B. P. O. Elks, has purchased, through the Conrad-Donnelly agency, the J. E. Townsend property, adjoining the Elks' home on Volusia avenue, the purchase of the property being ratified at the regular meeting of the lodge Friday evening. The purchase price is said to have been \$9,500 and the necessary funds were subscribed by the members at the meeting within a few minutes after the transaction had been ratified by the lodge.

The property purchased, of which the Elks' lot was originally a part, has a frontage of 80 feet on Volusia avenue and includes a dwelling house which is now rented and occupied for the winter season.

The addition of this property gives the Elks' lodge a total frontage of 135 feet on Volusia avenue and the frontage on Palmtoe avenue is about the same. The property was purchased as a provision for future expansion of the Elks' home, the phenomenal growth of the lodge already crowding the present building. The Daytona lodge of Elks ranks third in membership in the state being only exceeded by the lodges of Jacksonville and Tampa.

THINKS FLORIDA IS UNIQUELY BEAUTIFUL

"There are only two great nations who love peace—they are the Anglo-Saxons, Great Britain and the United States, and if permanent peace is ever secured it will be through the co-operation of these two countries," Sir Francis Webster, of Forfarshire, Scotland, stated yesterday during an informal interview with a representative of the News.

Sir Francis and Lady Webster, with their son and daughter, Miss Webster and W. J. Webster, are guests at the Clarendon for a short stay on their first tour of Florida, having landed in New York the first part of January. Asked to comment on the German declaration regarding submarine warfare that has startled the world, Sir Webster declined with the pertinent suggestion, "Ask your president what he thinks of the move." Continuing, "I find party faction in America much stronger than in our country and I have been struck with many of the articles printed in your papers, showing the stronghold that militarism has in this country. For my part I believe in universal disarmament—only peace secured in this way can be lasting, because the European nations are too ambitious, they are constantly reaching out for new territory and when such is the case the military party of a nation is a constant menace to other countries. As long as one country is armed, all must be armed, and for world peace we must look to the United States and Great Britain to bring this potent truth to the realization of other nations and so by universal disarmament make lasting world peace possible."

Turning to Florida, Sir Webster talked readily. "The brilliance of your tropical vegetation is unique, especially the flame vine which looks like an enormous torch bursting into flame through the woods, and is strikingly beautiful. We were rather surprised to find the vegetation much less luxuriant than we expected, though your climate explains that for we expected the humidity and heat of the tropics and find instead a climate unbelievably ideal, not only in temperature but in healthfulness and freedom from any form of rheumatism, usually found in a country where lakes and rivers abound as they do in Florida."

The party came to Daytona from Winter Park, making the trip by automobile and visiting Silver Springs, with which the distinguished Scotchman was very much impressed. The orange and grapefruit trees were a novelty that Sir Webster found fascinating, the golden globes clustering in the rich green leaves, being wholly unlike anything grown in Scotland. From Seabreeze Sir Francis and Lady Webster will return north, having seen, they think, the prettiest and most characteristic part of the state.

FACTS ABOUT HALIFAX

That there is nothing experimental or theoretical in our tests and estimates of the Halifax lands, we find traces of the occupation of the land in the old Mission ruins, the foundations of ancient buildings and fortifications, the old sugar mills and an extensive system of drainage ditches. We find the old sugar fields today covered with great moss-draped live-oaks, magnolias and hickories, and the dense and luxuriant hammock growing as heavy as virgin forest, with the furrows of the old fields still plainly visible under the trees.

It is a beautiful place for a picnic. We have a club house out there to which you will be hospitably welcomed. Drive out any day, you will find it worth while. Get one of our maps. It will show you the roads. Yours with pleasure if you will call for it.

With the wind blowing 30 miles a minute and the thermometer losing courage as fast as a cub reporter covering the battle of Waterloo, surf bathing, fishing and golfing lost their attractions yesterday, became non-existent, and bowling was easily the indoor sport for the day. Guests from Schmidt's hotel who spent the morning at the alleys were Mr. and Mrs. George Messmann, Mr. and Mrs. A. I. Moore, Mr. and Mrs. V. Neuberger, Mr. and Mrs. W. Perkins and Mrs. L. Porte.

Piled high with crackling logs and sending a warm red glow over the room the great stone fire-place of the Seaside Inn made the lobby and card rooms very attractive yesterday, and here the guests gathered to embroider or play cards. Among the bridge and 600 groups were Mrs. W. H. Lauterman, Mrs. Mollie Gay, Mr. and Mrs. S. S. Blair, Mr. and Mrs. William Horne, Mrs. C. W. Jordan, Mrs. M. Bressler, Mr. and Mrs. M. L. Fenton, Mrs. E. M. Norwood, J. F. Montgomery, Frank Norwood and A. McDonald.

A distinguished visitor to Daytona is Rt. Rev. Paul Matthews, of Princeton, the Episcopal bishop for the state of New Jersey. Bishop Matthews is an eminent dignitary of the Episcopacy and has kindly offered to celebrate at the morning services at St. Mary's Episcopal church on Sunday. Mrs. Matthews and daughter, Miss Charlotte, accompanied the bishop and they are pleasantly located at the Ridgewood for a few weeks' stay.

MAJ.-GEN. PENNINGTON GUEST AT CLARENDON

Major-General A. C. McW. Pennington, U. S. A., arrived Thursday to join Mr. and Mrs. Louis Pennington, of Washington, D. C., at the Clarendon for the remainder of the season. It is given to few men to attain the place for loyal and courageous service held by Major-General Pennington in the annals of the Civil War. Serving in the Gettysburg campaign and with the Army of the Potomac, his record for bravery and brilliant leadership is a series of honors extending through the four years of the war, and it was not until 1899, after 40 years of service, that Major-General Pennington was retired at his own request. A member of the Loyal Legion, the Society of Foreign Wars, the Society of American Wars, as well as the National Geographical society, he is one of the most notable personalities of today.

Mr. and Mrs. J. S. Coffin, of Englewood, N. Y., are enjoying a delightful stay in Seabreeze at the Clarendon.

Miss M. D. Beardsley and Miss J. T. Sullivan, of Auburn, N. Y., are guests at the Clarendon, having arrived Thursday.

Among the luncheon guests at the Clarendon Thursday were T. H. Briggs, of Davis, Ill., and P. K. Cross, of Morris, Ill.

Mr. and Mrs. John Jay Cisco, Jr., of Greenville, Conn., are late additions to the automobile colony at the Clarendon, where they will spend several weeks.

Mr. and Mrs. A. J. Hazeltine, of Warren, Pa., have joined Mr. and Mrs. E. W. Campbell and Mr. and Mrs. O. F. Hoffman at the Clarendon for the season.

Mr. and Mrs. R. C. Dickinson, of Chicago, Ill., are visiting Seabreeze for the first time this year and are guests at the Clarendon hotel for a several weeks stay.

Mr. and Mrs. L. J. Hopkins, Misses Ruth and Joan Hopkins, and Miss Eleanor Holden, of Chicago, Ill., were an interesting luncheon group at the Clarendon Thursday.

Charming additions to the married contingent at the Clarendon are Mr. and Mrs. R. H. Linnard, of Fall River, Mass., who were among the incoming guests Thursday.

FISHING PARTY LANDED FINE TEN-POUND TARPON

F. S. Riley and H. R. Bauers, who have accompanied B. H. Smith on several previous fishing trips, joined him Thursday on an excursion to the head waters of the Halifax in his launch, "Michigan Girl," and enjoyed the best day's sport they have had this season. The day was ideal and the fish in the best of humor to take the bait, so that they brought home 50 pounds or more, the catch including red and black bass, trout and a ten-pound tarpon. The latter was hooked by Mr. Riley and made a magnificent fight, jumping clear of the water several times. The pole snapped just

as the silver king was being hauled the boat side, but Mr. Riley, the line and with the assistance of his companions, landed the fish which yesterday was enjoyed by tables of friends of the fishery.

Mrs. Ernest Chase, of Nashville, Tenn., who is visiting her husband, W. B. Wright, and family at home on Arlington avenue, Bunn Park, went up to Jacksonville by yesterday morning for a brief planning to return this afternoon.

RIDGEWOOD PARK SALE OFFERS OPPORTUNITIES

The handsome display of silverware in the show window of the Bingham & Mahey company on South Beach street is made up of the presents and souvenirs which will be given away at the auction sale of lots in Ridgewood park next Tuesday and Wednesday.

S. A. Pierce, of Jamestown, R. I., owner of the new subdivision on Ridgewood avenue just north of this city, is making special arrangements for this auction with which he proposes to conclude 50 years of active business life, most of it devoted to auctioneering. He has always made a point of doing nothing but straight, honest dealing in his auction work and is proud of his record in this respect. He has held several auction sales of real estate here in the past few years, both for himself and others, and there has never been the slightest question to cloud his reputation for square dealing. When he puts a piece of property up at auction it will be sold to the highest bidder in accordance with the terms arranged for the sale, regardless of cost or value.

Mr. Pierce has 14 lots to sell, 13 of them in Ridgewood park, which is particularly well situated, only a short distance north of the city line and as lush and dry and covered with trees of natural growth. Wide streets have been laid out, graded and hard surfaced and cement sidewalks constructed. It is without question, as Mr. Pierce says, the best subdivision proposition he has ever handled here. He will be assisted in the sale next week by Ledyard Anthony, of Jamestown, where Mr. Pierce disposed of most of his real estate holdings the past summer. It will be well worth while for either home-seekers or investors to attend the sale next Tuesday and Wednesday mornings.
